# Ecological Restoration

The Original Restoration Publication

Edited by Steven N. Handel, Rutgers University  
ISSN: 1522-4740, e-ISSN: 1543-4079  
Published four times per year

*Ecological Restoration* is a forum for people advancing the science and practice of restoration ecology. It features the technical and biological aspects of restoring landscapes, as well as collaborations between restorationists and the design professions, land-use policy, the role of education, and more.

This quarterly publication includes peer-reviewed science articles, perspectives and notes, book reviews, abstracts of restoration ecology progress published elsewhere, and announcements of scientific and professional meetings.

## Ecological Restoration

Volume 35 • Number 2 | June 2017

How does bird diversity differ between naturally regenerating and actively restored tropical forests?

*“Ecological Restoration was instrumental in awakening restoration in North America, and prospers as an invaluable publication for those whose approach to restoring ecosystems includes ecology, culture and all that goes into making a project successful.”*

—Eric Higgs, author of “Nature By Design”
